#### Are you a member of a Professional Interest Section?

Entrepreneurs, Cooking Schools and Teachers, Food Photographers and Stylists,  
Food Writers, Editors and Publishers

### The rest of the story:

#### Tell us about your career and what makes it unique.

I have been involved in the food world my entire life. Since taking over the family restaurant in 1999, I have been on a culinary trajectory. I penned my first Cookbook, *My Big Fat Greek Feast*, in 2004 and have another major cookbook focusing on my Greek roots in the works. I have appeared on many national and international cooking shows as a guest chef, as well as mastering the art of food photography and food styling. I have worked to help bring Greek Cuisine to the forefront of the culinary world, helping give Greek Cuisine the credit it deserves worldwide.

#### How has IACP impacted your career?

The IACP has been a wonderful tool in all that I have done, allowing me to network with some of the great culinary talents of today's industry. I have learned many cutting-edge techniques and the latest trends from the teleforms offered by IACP. I have taken my love and passion of all things Greek and culinary beyond the kitchen and into the global arena.
